CARRICK CASTLE
ESTATE

Subject: Letter of Support for the Upper Cormonachan Path Project.

To Whom it may concern.

Carrick Castle Estate would like to express their support for the proposed Cormonachan Path Project as proposed by the Cormonachan Woodlands Association.

The proposed extension of the path network will increase access across the woodland allowing residents and visitors to the area and National park to explore and appreciate the woodland substantially more than is currently possible.

The Cormonachan Woodland is currently one of the main easily accessible recreational walks in the area and the extension of the path will definitely go a long way in making this very popular attraction in our local area even more enjoyable. The historic old village and dramatic waterfalls of the burn visited before only by a few would be easily reachable for all to be appreciated. During summer months the current car park can get very congested and the proposed additional car park will aid to relieve this overflow and its location makes it ideal for people who are not physically capable of walking long distances to enjoy and appreciate different parts of this wonderful natural area.

Please do not hesitate to contact me directly if needed.
