To whom it may concern,

I wish to express my complete support of the Cormonachan Woodlands Association and their current project aiming to create a new 2km pathway in the Cormonachan Community Woodlands. Not only will this project be a great tourist attraction, it will vastly improve accessibility to parts of the woodlands for locals.

The association have a great record of accomplishment with projects in the area including a new red squirrel hide and contemplation shelter, and I am sure this project will continue to follow this record.

Best Regards,
