Dear Sirs

To whom it may concern – Letter of Support

As owners of Rhumhor House in Carrick Castle we wanted to write this letter to confirm our full support to the Association for their current project to construct a linking path network from the existing network at the north end of the woodlands to extend the path from the Contemplation Shelter to Upper Cormonachan and other associated works including a further car park.

This extension to the existing network of paths will greatly improve the accessibility of this wonderful community asset and is something we are delighted to support.

Guests at our holiday villa in Carrick Castle regularly leave comments in our visitor book about the wonderful walks they have enjoyed in the Cormonachan Woodland and the fabulous views over Loch Goil. It's a community asset we always encourage our guests to visit. We can only confirm we wholeheartedly agree with these comments and think these improvement works will further enhance the woodlands as a fantastic community asset which the Association can rightly be immensely proud of.

We do hope these enhancements come to fruition not only for the benefit of the local community but also for the very many visitors, including guests to our accommodation, who rightly enjoy their visits to this wonderful asset. The further opening up of the woodland will be a fantastic further local attraction which will benefit our business as it develops.

We wish the association every success in its endeavours in this regard.

Yours faithfully

Euan J Miller – Director
