Cormonochan Woodlands Association

I am writing on behalf of the Argyll Small Woods Cooperative to offer our support for your proposals to create 2 km of new paths and a new car park in Cormonochan Community Woodlands.

This is an excellent project that will improve access to this important woodland, providing interpretation about the old township and associated shielings.

This project will build on the previous projects in the wood, providing access into the woodlands for health, education and enjoyment.

Please let us know if there is anything the Cooperative can do to assist you delivering this project.

Sincerely,
