Letter of Support

We wish to express our complete support to the Cormonachan Woodlands Association for their current new 'Upper Cormonachan Paths Project' to construct a linking path network from the existing 2.5 km of paths at the north end of Cormonachan Community Woodlands to extend the paths from the Contemplation Shelter to Upper Cormonachan with 2 km of new paths linking in with the forest road, the old village, the waterfalls and down to the Lochgoilhead to Carrick Castle road with another car park by the road bridge by Cormonachan Burn.

This will give great access to the wonderful waterfalls and the old village with four view points along the route currently extremely difficult to reach.

Pupils at Lochgoilhead Primary School had the opportunity to visit the site of the old village last year as part of a history interdisciplinary topic. Working with historians from Archaeology Scotland, the children successfully completed their Heritage Heroes Bronze Award. Pupils were able to share with the community what they learned.

There are further educational benefits of the site which would enrich the curriculum we are able to offer the pupils and we would like to support this new project that will open up all 58.9 ha of the Cormonachan Community Woodlands area.

Yours sincerely
