Letter of Support

On behalf of Scouts Scotland, I would like to express our support to the Cormonachan Woodlands Association for their current new 'Upper Cormonachan Paths Project' to construct a linking path network from the existing 2.5 km of paths at the north end of Cormonachan Community Woodlands. The extension of the paths from the Contemplation Shelter to Upper Cormonachan with 2 km of new paths linking in with the forest road, the old village, the waterfalls and down to Lochgoilhead will be of benefit to locals and visitors alike.

Scouts Scotland has an outdoor activity centre based in Lochgoilhead; www.scoutadventures.org which delivers activities to many young people through scouting groups, school groups, Duke of Edinburgh award, John Muir award etc. The new paths project would provide us with some new routes to use with our participants, encouraging our young people to be active outdoors, and to gain skills for life. The paths will give great access to the wonderful waterfalls and the old village with four view points along the route which are currently extremely difficult to reach.

We acknowledge the great volunteers who are conserving the heritage for our local area around Lochgoilhead and do hope that their project is supported for the benefit of all.

Yours sincerely,

Judith McCleary
